We would like to present you this catalogue which has been prepared in order to show you our wide range of products.

Due to our extensive history, with more than sixty years in the market as a manufacturer of blinds, curtains and similar products, CHICO PONCE offers the security and guarantee that all our products are made with high-quality materials and with an excellent and diligent elaboration.

We hope this catalogue becomes a useful and a practical tool for you as we made our best effort to make it easy to understand and effective to search our products.

PERSIANAS

“Alicantina” pvc or wooden roller blinds and accessories:

Made of pvc or pine wood. Its main application is to avoid the entrance of intense sunlight and insects during the summer as well as to protect doors and windows from the bad weather during winter. It also helps you to maintain the privacy of your home. The slats are crimped with galvanized wire hooks of 1.70mm thick.

Wooden roller blinds can be finished in different paints and varnishes colours. All "alicantina" blinds are sold with a pvc holding brake free of charge.

All components needed to manufacture the blinds can be sold separately.

Wooden fabric blinds:

The fabric is made of wood rods that are stitched with a cotton warp. The head and the bottom pieces are also made of wood and the side edges of the fabric are finished off with a trim.

The rolling mechanism is based on a simple system of cords and pulleys that has been specially designed for this kind of blind. There are two different types of assemblies, depending on the chosen raising and lowering mechanism, the rolling or the folding ones.

It is mainly used for interior decoration.

Roller shutters and accessories:

This product is manufactured with curved or straight pvc slats of 40 or 50 mm wide. It can be sold with ironworks or only the pvc roll.

Aluminum Venetian blinds:

It is made of aluminum slats of different widths and in a great variety of colours.

Wooden Venetian blinds:

It is manufactures with wood slats of 50mm wide which are connected by cords or tapes. It can be finished in a wide range of paint and varnish colours.

CURTAINS

Custom-made curtains of cords, tubes and tapes:

Made of high-quality pvc and with a specific formulation to provide them better features. Their composition has an UV additive to make colours more durable, an antioxidant component to protect transparent colours from getting a yellow tone and a slippery additive that provides a softer touch to the material.

The finish of the material can be opaque, transparent or mixed and the curtains can be manufactured in one or several colours mixed.

Curtains are packed in individual cardboard boxes with edge-covers for the rail.

Standard “NOVA” curtains:

They are manufactured in standard measures of 2.10m long and 0.90m wide and they are made of pvc tape. This material offers the possibility of being split in smaller tapes.

They are available in transparent, brown, ivory or combined (brown and ivory) colours. Curtains are packed in individual cardboard boxes with a window that facilitates their differentiation.

“Nova” curtains are sold with a minimum order of 6 units.

Product subject to stock availability.

Materials to manufactures curtains:

All cords, tubes and tapes materials are sold separately to manufacture the curtains. Materials are sold by weight in boxes.

Aluminum rail bars are available in silver, brown and white colours. There are different iron combs as well as profiles available for the set up of the cords, tubes and tapes. Edge-covers are also available in white and brown colours.

Custom-made “CANUTILLO” curtain and its components:

Curtains are made-to-measure. Canutillos are made of high-quality pvc with all the needed components in order to get the best features for external use. Hooks for crimping are also self-made with premium wire. Canutillo is sold loose or already linked together in bags of 15 to 20 kgs.

Aluminum rails for assembly are also available. Check the possibility of manufacture the canutillo in different colours.

Custom-made “CRISAX” chain curtain and its components:

Curtains are made of aluminum chain with anodized finish in different colours. They are made-to-measure.

Chain is sold in bags of 100m long and rails are also available in two colours, silver and brown.

POLYETHYLENE CORD FOR AWNINGS

Made of premium virgin polyethylene.

FEATURES

- Excellent thermal and chemical resistance.
- Very good impact strength.
- High resistance to most solvents and acids.
- Resistant to water at 100°C
- It is recyclable.
- Standard measure: diameter of 5.5 mm approx. (Check for other measures)
- Colours: black or white
- Supplied in rolls of 400 m.
- 1 kg has 48 m approx.

CONDICIONES GENERALES DE VENTA

- 1 - All orders must be signed by the client and they have to be sent by fax or email in order to have a written confirmation. Customer will be responsible for any mistake with measures, colours or models in case of orders made by phone.
- 2 - All our products are customized according with the details provided by the client. These details must be written in the order sheets we send for free on demand.
- 3 - All the prices quoted are ex-works, with the payment of the postage being at the customer's expense. If the order's amount exceeds 100€, portage will be paid by our company. Note that this condition applies only to orders with peninsular shipping and to the Balearic Islands. Consult shipping conditions for the Canary Islands and international shipments.
- 4 - Prices shown at the price list do not include taxes (VAT). VAT will be applied according with current tax rates at the moment of making the invoice.
- 5 - In terms of payments, measures will be rounded up five at a time.
- 6 - The form of payment will be 30 or 60 days from the invoice date.
- 7 - 3% off discount will be applied for cash payments.
- 8 - In event of payment default, we will request a prepayment for future orders.
- 9 - Customer complaints will not be admitted after 15 days from the product reception. In case of external mistakes, we reserve the right to exchange the goods. If we accept an exchange, we will apply a devaluation of 35% of the product's value. The good will be returned to our facilities with paid portage and it will not be exchanged until the product is in our warehouse to be examined and evaluated.
- 10 - Goods with a deficient packaging or with evident signs of wrong handling will not be admitted.
- 11 - Due to Chico Ponce is a supplier and does not install its products, it will not be responsible for any damages caused by a wrong installation or an incorrect handling from the installer.
